

ASSIGNMENT E-PORTFOLIO

SETTING

PORTFOLIO (according to Wikipedia): from Latin portare (to carry) and folium (sheet of paper), is in general a collection of works or accomplishments by a person.

E_PORTFOLIO (again Wikipedia):

An electronic portfolio (also known as an eportfolio, e-portfolio, digital portfolio, or online portfolio)[1] is a collection of electronic evidence assembled and managed by a user, usually on the Web. Such electronic evidence may include input text, electronic files, images, multimedia, blog entries, and hyperlinks. E-portfolios are both demonstrations of the user's abilities and platforms for self-expression. If they are online, users can maintain them dynamically over time.

e-portfolio:

- gives insight in the **personal and professional development**,
- gives insight in **technical competences and entrepreneurship**,
- tells something about **intercultural interests**,
- contains a collection of evidence to support job application in near future (personal)

The e-portfolio proves that you possess the right and necessary skills to function as a junior IT specialist.

PURPOSE

Your digital portfolio is meant to introduce yourself to potential employers. Gather all info about yourself, test results, reflections, ... Certificates of extra courses or meetings, symposiums, ... are of course a plus.

Your e-portfolio is a reflection of YOU.

ASSIGNMENT

Build a website/application that will serve as your personal e-portfolio. This year the requirements are as follows.

- The e-portfolio is bilingual (English and Dutch).
- You are free to use any technology to build your portfolio: use a tool or start from scratch and do everything yourself. (If you have taken the course WebApp1 & WebApp2, a personal approach is preferred of course)
- Read carefully the info (Dutch) on this site <http://www.werkbladmagazine.nl/artikel/een-e-portfolio-het-nieuwe-cv>
- Put your site online no later than **01/06/2018**. As soon as your portfolio is online, post the URL (=the URL to your HoGent web space) in the assignment e-portfolio.
- Every student has a web space provided by HoGent. The webserver does NOT support server-sided scripting (PHP, .NET, ...) If you want to use those techniques, you will have to look out for a server and web space by yourself. If you use such a server/web space, make sure that your hogent space forwards automatically to your e-portfolio.

HoGent DOEN!

Some free servers:

- <http://www.openshift.com/>
- <http://www.heliohost.org/home/>
- <https://dede.nl/>
- <http://www.homepage-maken.nl/homepage.php>
- ...
- Minimal requirements:
 - Home page with a brief introduction on this e-portfolio. Info about yourself with name, picture, personal info, ...
Tell about yourself: interests (professional, hobbies, passions, ...) interesting experiences, accomplishments in IT sector, ...
 - Page on personal development. Gather all info on the first aspect in i1Talent (Individual and IT). E.g. DISC results (+reflection) ...
 - Page on intercultural aspect. Report on the assignments concerning the 2nd aspect (International and IT).
 - Page on entrepreneurship. Report on the assignments concerning the 3rd aspect (Entrepreneurship and IT). E.g. elaborate on your personal part in the InnovIT assignment and possible other initiatives you took
 - A contact page.
 - Did you do extras, next to the assignments in i1Talent? (lectures, projects for third parties, conducted workshops for children, created an app, communicated with international/multicultural institutions) DO mention them on an extra page (or pages) in the e-portfolio.
- **Your e-portfolio has to be a dynamic and CREATIVE reflection of who you are. It does of course have a professional look and feel. It's the first step towards a digital business card.**

DEADLINE

As soon as your portfolio is online, submit the link in the Assignment on Chamilo.

Friday 01/06/2018 24h00 is the deadline: final version has to be online!
